### To FAI International Skydiving Commission

#### ASIANIA Annual Report 2020

The ASIANIA Parachute Federation was unable to hold the "ASIANIA Outdoor & Indoor Skydiving Competitions" that it planned for 2020 this year due to a global pandemic.

In addition, most member countries (Federations) have also canceled or postponed their national competitions and skydiving activities. This will be a tough time not only for ASIANIA, but for everyone around the world.

Although it is not possible to proceed with competitions and activities, we are continuing to consult with member countries in order to be able to hold the competition when the pandemic is over.

In addition, we continue to encourage inactive members (federations) to reactivate, and especially advise non-FAI member countries (federations) to join membership.
