## CHIEF JUDGE'S STANDARD REPORT

<b>Competition:</b>	19th FAI World Parachuting Championships in Formation Skydiving and  14th FAI World Parachuting Canopy Formation Championships  and  8th FAI World Parachuting Championships in Artistic Events
<b>Event:</b>	Formation Skydiving
<b>Place:</b>	Menzelinsk, Russia
<b>Date:</b>	31.7.2010-6.8.2010
<b>Panel of Judges:</b>	2 panels
<b>Equipment Used:</b>	Omniskore
<b>Details of the Judges Work:</b> <i>(including judging statistics)</i>	4 Way Open: 19 teams  4 Way Female: 8 teams  8 Way: 5 teams  VFS: 6 teams  New world record achieved in Open 4 way. 56 points in round 3 shared by France and Russia.  Numerous national records broken in the Open 4 Way, Female, and VFS Events.  All rounds in all events completed.
<b>Recommendations for Organisers:</b>	Both scoring system panels should be up and running before the judges' conference.  Technical support for scoring system should provide support, not gainsay, or outright refuse to set up the event as per the numerous requests by the CJ and IPC J-S.
<b>Rule Changes Proposals:</b>	0
<b>Personal remarks:</b>	The competition site was well organized, clean, and efficient. The FS judges were housed at the DZ. This worked very well as we started judging early and finished quite late. It allowed the judges to relax after a long day's work. It was very hot and fans were

	<p>provided in all rooms; however, air conditioning would have been preferable.</p> <p>The FS rooms were on the second floor of the judging building and were very hot and stuffy. Again, air conditioning would have been very welcome as the day wore on and the rooms became hotter.</p> <p>Scoring system: Unfortunately, the scoring system in the second FS room was not set up and it looked that the FS event could not proceed. Finally, it was quickly set up and seemingly ready to go. Unfortunately, because the second system was set up so late, it was not tested. We had numerous problems with it during the first day of competition.</p> <p>The draw for both 4 and 8 way was generated by Omniskore. Round 3 was a particularly fast, all random round. This led 5 teams to score over 50 points in the round. Unfortunately, we were informed by Omniskore tech support that the scoring boxes will only show up to 38 points and the system will not score past 50 points. Apparently this is "hard wired" into the system and cannot be changed. This led to the need for all standings to be posted into an excel sheet manually. I would like to thank Fay Kimble for allowing me to use the spread sheet from the FAI website for posting my standings.</p>
