<b>Equipment Used:</b>	Gerd Weckbecker Systems for Freefall Style and Accuracy Landing judging. Unfortunately, there were several problems with AMD. Insufficient protection against static electricity trigger is one of probable reasons.
<b>Details of the Judges Work:</b> <i>(including judging statistics)</i>	<p>All Judges had arrived in time but there were some technical problems with the starting of the Judge's seminar on August 26 morning.</p> <p>All judges were very experienced, 11 judges had been successfully evaluated for the Style Event during the seminar and two separate panels were selected after consultations with the Style Event Judge.</p> <p>Accuracy Landng Panel - 1404 judgement jumps; Freefall Style Panel - 350 judgement jumps</p> <p>All judges did their jobs successfully, they were a nice professional team.</p>
<b>Recommendations for Organisers:</b>	To include in the Agreements with FAI, and technical operation persons as well, a special point about obligations to finish preparations of all equipment for judging by judges' arrival day at the latest.
<b>Rule Changes Proposals:</b>	<p>To qualify p.5.2.5 CR "Drift Angle" regarding to a further re-jump because of an exceeding of vertical drift angle and a horizontal drift angle are different actions and must be treated separately.</p> <p>To qualify p.5.1.5.(6) CR more clearly such as in the CISM Parachuting Regulations p.1.5.5. "Accepted shape of the shoe"</p>
<b>Personal remarks:</b>	I'm very thankful to the Organizers, the Meet Director Viktor Kupljenik, the Jury, the FAI Controller John Hitchen, for good relations, cooperation and understanding.
<i>According to Sporting Code Section 5, 6.9.1 (11) this is to be sent to the Chair of the Judges Committee and the IPC Technical Secretary within 30 days of the competition completion.</i>
