The new FAI logo, as part of FAI's centenary anniversary, will be used on all correspondence and a new flag has been created.

4. PRESIDENT'S ADDRESS

4.1 President's Report

IPC President Patrice Girardin reported on IPC-related activities in 2004, which was included in the Agenda. Topics of the report included:

- The difficulty of enforcing IPC rules for those who are granted authority to conduct FCEs.
- A new organizer's agreement being written by FAI headquarters, to be presented for use as soon as it's ready.
- President Girardin's inquiry to the FAI for the right to negotiate directly with organizers and by-pass NACs; also his desire for IPC to have more autonomy and more control over how it manages its finances.

4.2 Decisions by the Bureau

President Girardin reported on the IPC Bureau's interim work during 2004, which was included in the Agenda. An additional decision was added by 1st VP Windsor that occurred after the agenda was published but before the meeting opened, which was the appointment of

jury member Arne Nilsson for the 2nd World Cup of Canopy Piloting in the USA. The interim actions were approved by the Plenary.

4.3 Mission Plan

President Girardin reported on the status of the IPC Mission Plan and its development, which was included in the Agenda. Topics of the report, and proposed team leaders where appropriate, included:

- Long term IPC goals are to be maintained as long as the WAGs and WGs remain – team leader Graeme Windsor.
- The ranking system is to be suspended until such time that the idea becomes acceptable to all delegates.
- The mondial structure is to be maintained, with the concept developing into the World Parachuting Championships – team leader President Girardin.
- Synchronization becomes coordination and needs to be maintained, with an effort to find a common standard that benefits all the disciplines – team leader Ronald Overdijk.
- Event development is to be maintained, with a review of the world cup format in an effort to find private organizers, and to integrate continental championships as well as parallel structures such as Asiana – team leader Rainer *Exi* Hoenle.
- IPC needs to manage its own website – team leader Susan Dixon.
- Image capture and handling is to be abandoned, in that technical development is so fast that it is not a worthy investment at such a small scale.
- Sport scoring and vision becomes presentation and is to be maintained, must become standardized for use in judging and scoring and must be included in the organizer agreements – team leaders Graeme Windsor and President Girardin.
- The financial plan is to be maintained, with the goal of identifying potential sources of income, and the creation of a portfolio – team leader Richard *Buzz* Bennett.
- Archives and memory are new items to the mission plan, in that IPC needs to archive history of the sport and especially the IPC – team leader Larry Bagley.

After the proposals were accepted by the Plenary by vote, each team leader was asked to redefine and submit to the Bureau for action the specifications and actions of their field.

5. WORLD GAMES / OLYMPIC GAMES

- 5.1** Dr. Rainer *Exi* Hoenle, IPC Technical Director for the World Games 2005, briefed the Plenary on the IPC's involvement in, and the progress of, the 6th World Games, to be conducted in Duisburg, Germany in July.

6. WORLD AIR GAMES

6.1 Future World Air Games

President Girardin attended the 97th FAI General Conference in Madrid and participated in the discussion of the future of the WAG. IPC plans no further participation in the WAGs until such time the development of the concept is presented to and approved by the IPC Plenary.

7. GENERAL ISSUES

President Girardin asked delegates to think about the future of World Cups and whether they should be replaced with leagues or tours, like the National Skydiving League, Pro-tour and Europa Cup. Also, whether it would be better to have several short IPC competitions throughout the year in order to increase the number of competitions rather than one World Cup for each discipline every other year. There was discussion on how to increase revenue and the need to develop a relationship with private bidders of FCEs. In the future, mondial bids will be addressed in the agenda as a separate item, rather than as part of each competition committee agenda item. The Plenary approved the development of the concepts by the President.

8. TECHNICAL AND SAFETY

Technical and Safety Committee Chair, Knut Ekerhovd, reported on the Committee's activities in 2004, which were included in the Agenda, and the results of its open committee meeting.
