Proposals for changes to competition rules AE 2005

Changes in bold ~~Deletions~~

General

4.4.3. (new) If two or more teams have equal scores for entry into the final rounds the following order of procedures will be applied:
i) the highest score in any completed round.
ii) the highest score starting with the last completed round, and continuing in reverse order, round by round until the tie is broken.

5.7.6. of the **Artistic Events** Committee ~~for Freestyle Skydiving, Skysurfing and Freeflying.~~

5.9. In this case, a rejump may be given.

5.9.1. In the case that the VRP determines that there has been an intentional abuse of the rules by the Team, a rejump will not be granted and the Team will receive the minimum score.

5.9.2. **In the case that the VRP determines that negligence is cause of the lack of video evidence, a penalty will be applied as follows:**
i) First infringement: a penalty of 3,5 points will be deducted in determining the actual score of the rejump.
ii) Further infringements: a rejump will not be granted and the Team will receive the score based on the video evidence available.

7.3.6.1. Each delegation may be comprised of:
~~One (1) Jury Member (if not Head of Delegation)~~
A maximum of **two (2)** ~~three (3)~~ Teams for a WPC **and an EPC.**
A maximum of **three (3)** ~~four (4)~~ Teams for a Worldcup.

Freeflying

5.12.1.3. Failure to meet the requirement of total separation, will lead to a deduction of one (1) point.

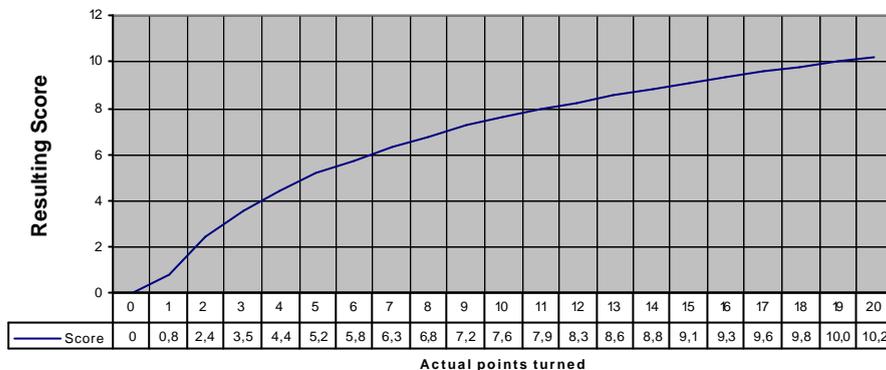

5.12.1.4. **Any non judge-able or incorrectly performed Random will lead to a score of zero (0) points.**

5.12.1.5. An omitted Random will lead to a deduction of **two (2)** ~~one (1)~~ points.

5.12.1.7. The calculation of scores are shown in a graphic as follows:

Freely compulsory (speed) round score chart

Addendum A:

BODY:~~Body:~~

- **Torso: the body, including the shoulders, and parachute, but excluding the arm, legs, head and neck.**

For freeflying records, grips and dock are valid, if taken on the are, the leg, the ~~torso body~~ or the head.

RANDOMS

The order of the sentences of the descriptions of the randoms does not implicate an order of performance of the requirements.

All randoms will be redefined excluding non-judgeable criteria such as level and position of arms and legs.

Freeflying randoms 2005 will be such that inters (taking grips before meeting the performance requirements, and then changing heading/orientation in order to meet them) are impossible or very difficult.

Addendum C Freeflying

~~Dock~~ to be replaced by **grip****Freestyle & Skysurfing**

- 5.10. The Committee investigates the possibility of redefining the composition of Compulsory Sequences: 2 (not 4 as in 2004) to be drawn out of a pool of (about) 30, and the rest of the jump free.
- 5.11. The Committee investigates the issue of new moves and how to reward them in the free routines. This could be a bonus score for a new move, or it could be a separate criterion to be take into account for scoring (with a minimum partial score, as yet to be defined). The Committee also investigates the issue of variety between the free routines.

Both 5.10 and 5.11 can either be withdrawn or accepted (fully, changed or partially), depending on further input from the Committee and the competition community. The mentioned changes require a big rewriting of the competition rules.

56th FAI/IPC PLENNARY MEETING 2005

Subject:	AE Proposed Rules Changes		Annex:	15
Author(s):	Ronald Overdijk, AE committee chair		Agenda ref.:	13.3
Authors representing:			Doc. nr:	1
Date:		Repl. doc. dated / version:	N/A	Page 3 of 3

Addendum A Freestyle Skydiving

FR 1 (Synchronized Tracking Barrel Sequence) will be deleted for safety reasons (untrained horizontal displacement during the jump)

Addendum A Skysurfing

At least 2 Compulsory Sequences will be changed.

SK-1 Helicopter (if not deleted in 2005)

- ~~• Entry into the Helicopter can be from any other position and/or orientation.~~

Addendum A Skysurfing

SK-5 Sit Spin

- No hand-grip ~~may be taken~~ **is allowed** on the board.

Addendum B Skysurfing

A-9 Sit Position

- The torso shall be at about **120°** ~~45°~~ with the surfboard.

Addendum C all events

Will be updated where necessary.
