(only one person from a country may be nominated annually by that candidate's National Airsport Control)

Name of Nominee : Emil Giezendanner

Address : Feldstrasse 25 b  
8330 Pfäffikon  
Switzerland

**Reason**

The international Aeromodelling community owes Mr. Emil Giezendanner great appreciation for his leading role in promoting electric power for model aircraft ever since the very first beginnings of this technology. Heading the CIAM F5 Subcommittee ever since, Mr. Giezendanner has been truly instrumental in establishing various competition classes for electric powered aeromodels with great success. His initial and ongoing contribution to the common cause of environmental friendly Aeromodelling deserves highest respect.

Emil Giezendanner's exemplary attitude towards the common cause of Aeromodelling is best illustrated by his regular publishing, at own cost, of the well known and highly appreciated "CIAM-Flyer" since many years.
