In another key milestone in the process of building Olympic Agenda 2020, a strategic roadmap for the future of the Olympic Movement, IOC President Thomas Bach today released the membership of the 14 Working Groups which will help frame some of the key recommendations. Each group will be made up of key stakeholders of the Olympic Movement, including IOC members, athletes and representatives of the International Federations and National Olympic Committees. As part of the ongoing open and inclusive process, a number of experts have also been included from civil society, including representatives of leading international organisations, NGOs and business organisations. The Working Groups will look at proposals made by the Olympic Movement, the world of sport and even by individual members of the public. Under discussion will be topics ranging from Ethics and the Youth Olympic Games to Good Governance and Autonomy and the planned Olympic TV Channel.
