

JURY REPORT

2003 F3D WORLD CHAMPIONSHIP

MELNIK, CZECH REPUBLIC

AUGUST 25-30, 2003

BOB BROWN, JURY CHAIRMAN

The 2003 F3D World Championship was held in Melnik, Czech Republic on August 25-30, 2003. Forty pilots from sixteen countries competed without protest. Although the contest was slowed by one day of slight rain and wind, the entire schedule was completed. The electronic scoring system functioned very well and should be an example for others to follow. A world record was established by Chris Callow of Australia. The Melnik Castle was the venue for the very nice closing banquet. The organizers should be commended for an excellent effort at this F3D World Championship.
