OF THE UNITED KINGDOM

~~President~~ or Secretary General of nominating FAI National Airport Control  
(must be submitted to the FAI Office by November 15)

10 NOV. 2003

**Nomination for the FAI Gold Medal  
Item 5 "Description" to be attached to the FAI Nomination Form for Derek  
Heaton, United Kingdom nomination.**

Derek Heaton has worked to develop aeromodelling by his organisational activities in parallel with his international flying career since the late 1960s. He was a member of the UK NAC's North Western Area Committee for many years and served 6 years on the UK NAC's Control Line Technical Committee. He was a central member of the organising committees for the 1978 F2 World Championships and the 1985 & 1989 F2 European Championships. He was the UK F2 Team Manager for the F2 European Championships in 1979.

From the late 1970's he concentrated on the organisation and development of F2C via the CIAM F2 Technical Sub-Committee. Derek was the primary author of the comprehensive F2C Jury Guide which has been universally adopted for Domestic, International and World Cup events and World & European Championships. This Jury Guide is now a significant factor in safely and fairly controlling F2C events despite major increases in engine power that can at times stretch the capability of both the competitors and F2C juries.

Derek has served as an F2C Jury member for four World Championships and six European Championships together with numerous Open Internationals in Holland and France. In 2000 he was a member of the FAI Jury at the F2 World Championships in France.

Between 1968, when Derek first represented Great Britain in F2C (Control Line Team Racing) and 1997 when he competed in his last European Championships, he has represented Great Britain at sixteen World and European Championships achieving individual silver and bronze medals and multiple gold, silver & bronze team medals. It is all the more remarkable, therefore, that Derek been able to achieve so much on the organisational side of Aeromodelling at the same time as competing as a world-ranked international flier.
