Petition to the IPC-Plenary 2012.

The case:

For hosting the European Championships and World Cup 2012 in FS and AE the –German Parachuting Federation had paid Euros 1600.00 Euros application fee according to the rules.

When the competition was completed successfully, the Sanction fee had been paid in full, The Financial Secretary of the IPC advised the FAI Office, not to refund the application fee in full, but to deduct the amount of Euros 84.73 for postage.

There are several points to be argued:

1. The sanction fee was paid already in full, therefore there is no reason to withhold part of the application fee.
2. For the action of the IPC Financial Secretary there is no IPC-Bureau decision to back this action not backed by a rule.
3. There has been no FAI-invoice issued to the German Parachuting Federation DFV e.V. about a postage over this amount.
4. The IPC\_President, when asked, how he explains the legality of this action, answered, that this is IPC policy.

It must be emphasized,

- that the DFV e.V. repeatedly had asked the FAI-Office, NOT to send any medals to the organiser in Germany, which have not been ordered, because there is an issue pending about the formal introduction of IPC medals without following the correct procedure of approval and addition to the IPC rules, but were sent anyway.
- that at the end, the medals for the competition in Germany were picked up by myself in Lausanne and were transported to the competition site at my own expenses.

The IPC-Delegates are asked, not to accept self-serving handlings and policies by the IPC-Bureau, which are not approved by an IPC-Plenary decision, to approve that this procedure is unacceptable and that the amount deducted from the application fee will be refunded to the German Parachuting Federation.
