

## **F2 Control Line Sub-Committee Annual Report 2018**

In april 2018 at the plenary meeting i took Mr .Halmans place over by the majority votes of the delegates.I established the new F2 S/C with mainly the previous members and some new members were selected.

I hade a heritage of the previous S/C wich rule was accepted at plenary meeting of 2018.The So called" F2C exhaust cover" rule was not sufficient prepared and tested before it was proposed for the 2018 plenary meeting .There fore it has been in the S/C and the relevant working group a continuies discussion which has resulted in certain points wording clarifications.See F2 clarifications.The Rule is still flexible and lot of concerns left about . further actions needed in the next calendar year.

F2B working Group leader and F2 S/C members, Mr.Peter Germann is buisy for F2B judge training Guide lines and a new rule proposal of Judge Fatigue.

The 2018 WCh of Control Line Models were held In Landres(France ) In july .The Championship was ran succesfully with a very high number of participants from around world.There were some minor issues during the Championship but i can state that this was one of the most succesful World Championships in the last 10 years.

There was a very unusal situation occured during this calendar year in the Ukranian Aeromodelling Federation.Approximatly 12 -14 sportmen's FAI licenses were unexpected withdrawn during the season.Explanation of the President of the aeromodelling federation ( Valeriy Kramarenko) was unclear and contraversional .CIAM President Mr.Papadopoulos was involved in this mailing conversations and situation .There are further discussion or action during the Bureau meeting required.

Together with the 2019 ECH organiser Mr .Lazarkov from Bulgaria we have selected the Jury and judge panels in common sense. Bulletin 0 need to be approved by upcoming Bureau meeting.

In co-ordination with Mr Ingemar Larsson F2D working group leader we prepared the relevant requirements for The 2020 WAG related to F2D Control line Models.

Ferenc Orvos

F2 S/C Chairman
