New FAI Sporting Licence management tool

- Key features
 - Create new licences
 - Extend validity of existing licences
 - Inform NACs of suspicious licences
 - Send licences via email
 - Print licences
 - Possibility for NAC specific templates
 - Online validity check with QR reader

Situation and Next Steps

Introduction of the system:

1. Iceland will start to use the system as a pilot user in May 2013
- 2.3 – 4 Other NACs during summer 2013
3. Mandatory to add all pilots participating in Cat 1 events from 2014 onwards?

Next development step: Competitor management tool

- System connected to the new database
- Competitor self registration (endorsed by NAC)
- Result upload by organizer

2014 -

Potential further developments (in connection with the new DB)

- Athletes update their own information
- Automatic control of participation right
- Athletes full competition history
- Ranking information integrated to athlete information
- Automatic update of the ranking systems
- FAI officials registry
- Reports for event organizers
 - Name badges
 - Registration lists
- Automatic event mailing lists
