Randy Smith	pylon.guy@shaw.ca	Canada
Stefano Candini	pylon@lere.it	Italy
Russel van de Westhuizen	ruswest@eject.co.za	South Africa
Fernando Bañón	fbhracing@hotmail.com ,	Spain
Geb Jones	gaj1@cam.ac.uk	United Kingdom
Gilles Desgruelles	gilles.desgruelles@orange.fr	France
Yoshinori Sato	y-sato@srsi.co.jp	Japan
Johan Bjerkander	uone@telia.com	Sweden
Elias Sopeoglou	info@metalso.gr	Greece

Discussions between members of the sub-committee were quite limited, and took place via e-mail and in small groups at Euro cup and other competitions.

For the F3D class the rules are stable after significant modifications in the recent past.

The F3T approvals committee under the chairmanship of Barrie Lever have been working on several new models and most were, sometimes after some modifications, approved.

Three Euro cup F3D competitions were held in Melnik (CZE), Palsboda (SWE) and Tours (FRA) which had in total 66 competitors. The Euro cup was won by the current Junior World Champion Emil Broberg (SWE), Michael Eklof (SWE) 2nd and Carlo Perella (ITA) 3^d. The results of this Euro Competition are attached to this report.

In these competitions the safety regulations were enforced; the positions of ground impact of crashed models were, like in the preceding years inside the statistics that form the basis of the currently used race course lay-out and safety areas.

The average speeds of the fastest pilots have not significantly increased in 2016; however there is a trend that a larger group of pilots are approaching the highest level every year.

The sub-committee chairman has been in regular contact with the organizers of the 2017 World Championship in Dala Järna, Sweden.

Preparations are running to schedule at the moment.

Rob Metkemeijer
