

Der FAI-World Cup F3B 2013

Review

The FAI-World Cup F3B 2013 was finished successful. The hot World Cup Trophies in Gold, Silver and Bronze were handed out during the prize giving ceremony on the occasion of the "38th Oktoberfestpokal" in Munich.

2. Platz
Thomas Dylla, GER

1. Platz
Andreas Böhlen, SUI

3. Platz
Andreas Kunz, GER

After 2012 Andreas Böhlen won the FAI-World Cup F3B the second time.

Over all we had 16 FAI-World Cup competitions F3B, 15 competitions in Europe and one competition in the USA.

All together there were 888 participations of 270 different competitors from 20 nations, but unfortunately only three youngsters.

With 383 participations the German pilots were represented most, followed by the Czech and Swiss pilots with 76 and the Austrian pilots with 68 participations. Details can be seen in the "FAI-World Cup Report".

Many thanks also on behalf of the FAI to the organizers who had with there voluntary helpers the most part of this successful FAI-World Cup F3B 2013.

There was created a wonderful trophy for the soaring classes F3B and F3F. During the World championship F3P in Coburg we had the opportunity to present this trophy to our president Antonis Papadopoulos, which found his absolute acceptance.

World Cup-Trophy F3B and F3F

This year we had numerous sponsors with supported us financially and manually. The main founding was done by Siggı Schedel "The ecological bakery".

Because of the increased number of trophies it was too expensive to produce the small planes in handiwork; therefore it was necessary to find a new way for manufacturing.

The manufacturing of the planes is now done with a spray cast method by Thomas Rößner owner of the "Solidtec Company".

The feet of the trophies are produced and engraved by Christian Fiedler owner of the "Cad Cam Office", the globes are modified by Reinhard Liese and the painting of the planes is done by Gerhard Köberlein.

Very impressive was the prompt publication of the results on "F3B.de" and the "FAI-homepage". In normal case the results were published at Sunday evening or at the following Monday latest. Many thanks to Karl Hinsch and Uwe Schlaffke-Mowinkel for there engaged and solid work.

Many thanks also the authors of the numerous articles; they are always an enrichment on "F3B.de".

R. Decker

FAI-World Cup coordinator F3B
