

Protos

F2D Round I Flight 13

Sergei Tsukov EST

Bjarno Schou Denmark

Pilot Bjarno Schou was DQ in a situation when his model was grounded, the opponent was flying and there was no line tangle. The circle marshal has invited the mechanic to reach the landed model. But the opponent was not controlling his model.

After the end of the heat, the judges decided to DQ the Danish pilot.

acc. to rule 4.4.13 C. p. but there was no line tangle.

as it was an unfair and unsafe

situation, I am requesting a re-fly acc. to 4.4.12 C.
