**Copy:** Manufacturer Concerned

**Date:** 10 December 2024

#### CIAM APPROVAL FOR SM Altimeter

**Approval Reference:** SMALT002  
**Manufacturer:** ADREL  
**Manufacturer Contact:** [adrel@adrel.com.pl](mailto:adrel@adrel.com.pl)  
**Device Name/s:** MaxAlt

- (i) This document gives formal approval from the above date for the altimeter equipment described below to be used for competitions under the Sporting Code Section 4: Aeromodelling – Class SM – Space Models S1 and S5.
- (ii) This document is the initial approval for this type of AMRT and only applies to the functions relevant to the SM competition class rules.
- (iii) Tests undertaken by EDIC-WG (or such representative as it may appoint), are specifically concerned with the functions relevant to the SM competition class rules.  
Other functions of the equipment are not part of this approval and the relevance of this document does not extend beyond the specific validation and certification purposes mentioned above.
- (iv) This document does not constitute a guarantee of compatibility of the device listed above with any associated devices with which it may be interconnected.
- (v) This document does not constitute any guarantee and/or statement by EDIC-WG, CIAM and/or FAI as to the reliability of the device listed above.
- (vi) This approval is not concerned with National and other regulations relating to electronic equipment and compliance with such regulations is not the responsibility of the FAI.
- (vii) This approval is not concerned with, and the FAI has no responsibility for, matters related to:
  - (a) Intellectual property and intellectual property rights and/or,
  - (b) Relations of the manufacturer listed above with any other entities except with FAI and its agents or as they affect the FAI, its agents and this approval.

## **EQUIPMENT**

### **1 HARDWARE**

#### 1.1 Equipment Name

MaxAlt

#### 1.2 Hardware Version

rev1

The hardware version is not printed in silkscreen on the circuit board due to lack of space.

It may be read by SW means.

PCB solder mask colour is green.

### **2 FIRMWARE.**

#### 2.1 Firmware Version

V 2018.2

### **3 CONDITIONS OF APPROVAL**

3.1.1 This Approval is only applicable to devices of the type described and manufactured to the same production standards as the example evaluated.

3.1.2 This Approval is not applicable to any device which has been subject to repair or modification by person(s) other than the original manufacturer or his authorised agent.

#### 3.2 Withdrawal of Approval

If after this Approval has been issued, inconsistencies of performance are found in further examples of the device(s), Approval may be withdrawn upon notice to the manufacturer.

#### 3.3 Changes to SM Class Rules

If the SM class rules are amended in any manner that affects the technical specification of the altimeter, the validity of this Approval will be subject to review.

#### 3.4 Expiry of Approval

This Approval remains active until it is either superseded or withdrawn. A list of all currently active Approvals can be obtained from the FAI CIAM website.

#### 3.5 Deviation from requirements

Device deviates from requirements for para 2.0i in 0.56g overweight. This is caused from a transmitting electronic part which is not required in functionality of the SM rules.

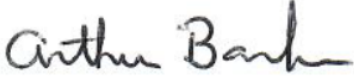

### **4 PRODUCTION STATUS**

At the date issue of this Approval, the device is current production.

### **5 MANUFACTURER'S CHANGES**

The manufacturer must make notification of any changes to hardware and/or firmware to the Chairman of EDIC-WG so that a decision can be made on any further testing that might be required to maintain CIAM Approval of the altimeter. This includes changes that are applicable to any additional functions of the device that do not necessarily form part of the SM requirements.
